Medical Management of CBRNE Events Training

Tuesday, March 10th—Wednesday, March 11th @ 8:00am to 4:00pm
Hadley Farms Meeting House, Hadley MA

WRHSAC is conducting Medical Management of CBRNE Events Training on March 10 & 11, 2015

What if a catastrophic event occurs? Will you be ready? Will you need a special level of protection? Is decontamination necessary? Do you have the right medications?

Medical Management of Chemical, Biological, Radiological, Nuclear and Explosives, (CBRNE) Events answers these questions and more as you learn how to distinguish between different agents of concern that could be used in a major incident.

This two-day course is a combination of facilitated discussions, small-group exercises, Human Patient Simulator hands-on scenarios, and traditional classroom discussions. Exercises are conducted in a CBRNE scenario using both adult and pediatric Human Patient Simulators to reinforce classroom lectures and interaction.

This course promotes critical thinking skills while utilizing the RAPID-Care concept. The multi-discipline make-up of the participants helps to strengthen information sharing, communications, and medical surge capabilities.

This course is taught by Texas A&M Engineering Extension Services. The course is free. Lunch will be provided.

This training is appropriate for the following disciplines:

- Fire Services
- Emergency Medical Services (EMS)
- Law Enforcement
- Hospital personnel, physicians and nurses
- Public Health Services
- Public Works (PW)
- Emergency Management Organizations
- City, County, State and Federal Medical
- Community Emergency Response Teams (CERT)
- Dispatchers

It is recommended that you take the following online courses prior to attending this training:

- [Basic EMS Concepts for CBRNE Events](#)
- [WMD/Terrorism Awareness for Emergency Responders](#)

Class size is limited to 45 participants. Please register for the course below.

OEMS credits are pending.
